

Customer Journey Map

Date	15 JULY 2026
Project Name	Smart Lender: AI-Powered Loan Approval Prediction System
Maximum Marks	2 Marks

Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1: Application Submission	Stage 2: Loan Evaluation	Stage 3: Decision & Result
Actions <i>What does the customer do?</i>	• Opens the Smart Lender website. • Enters personal and financial details. • Submits the loan application.	• System preprocesses applicant data. • XGBoost model predicts loan approval. • Credit officer reviews the prediction if required.	• Applicant receives loan approval or rejection. • Bank proceeds with approval or requests additional verification.
Touchpoint <i>What part of the service do they interact with?</i>	• Web application form	• ML prediction engine and Flask backend	• Result page and bank officer dashboard
Customer Thought <i>What is the customer thinking?</i>	• "Will my loan be approved?" • "Is the application process simple?"	• "I hope my financial details meet the requirements."	• "I received my result quickly."
Customer Feeling <i>What is the customer feeling?</i>	Curious and hopeful	Slightly anxious but confident	Satisfied if approved, motivated to improve if rejected

Process Ownership <i>Who is in the lead on this?</i>	Applicant	Smart Lender ML System & Bank Credit Officer	Bank Credit Officer
Opportunities <i>How can we improve this stage?</i>	• Simplify the application form. • Add input validation and guidance.	• Improve prediction accuracy. • Explain prediction reasons for transparency.	• Provide feedback for rejected applications. • Enable online document upload and application tracking
