Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS • “Will my loan application be approved?” • “Why is the loan approval process taking so long?” • “I want to know my loan eligibility before applying.”	THINKS • “I hope I meet all the eligibility criteria.” • “I need a fast and transparent loan approval process.” • “I don’t want my application to be rejected after waiting for days.”
PERSONA NAME <i>(Role / User Type)</i>	
DOES • Applies for a loan online and submits documents. • Provides personal, financial, and employment details. • Checks loan application status regularly. • Compares loan offers from different banks.	FEELS • Anxious while waiting for loan approval. • Frustrated due to delays and lack of transparency. • Uncertain about eligibility and approval. • Relieved and happy when the result is quick and positive.
